Notes on Mining.

The mining market, while dull for the past week, Co., members New York Stock Exchange, G. Bowie The mining market, while dull for the past week, has been strong. This is surprising, in face of the fact that summer is the dull season and prices sag. Opinion among mining brokers of New York is that there will be a bull market shortly.

Goldfield Consolidated has had a notable rise in the last mouth. This stock a month ago was selling at \$4.59 a share; to-day it is selling at \$8.50, and has been as high as \$9.00.

at \$4.50 a share; to-day it is selling at \$8.50, and has been as high as \$8.00.

Reginald Francis, A. I. M. M., English mining engineer, recently arrived in New York from Swansca, Wales, and left immediately for Cananea, Sonora, Mexico, where he will make an examination and report on the properties of the Pennsylvania and Cananea Copper Company, which adjoin and are a continuation of the Massey ore body of the Greene Cananea Copper Company, Mr. Francis makes this visit, it is said, in the interest of an important group of English capitalists. He is accompanied to Mexico by Robert Mitchell, president of the company.

#### LOCAL FINANCIAL GOSSIP.

The phenomenal rise in Gas stock, which of Union Pacific, the fact might not mean has recently marked the business of the that they were doing anything more than Washington Stock Exchange, received a filled. The market finally received a that they were doing anything more than conducting their bull campaign on scientific and safe lines. By selling stock on bulges, they not only make intermediate profits, but they place themselves in a position where they can buy freely to support the market or give it additional speculative way, apparently almost broke in a position where they can buy freely to support the market or give it additional speculative way, apparently almost broke intermediate profits, but they place themselves in a position where they can buy freely to support the market maily recovered at temporary setback yesterday. Though the power way is always and the case training forces are carly, although December was not by support as the case training forces and the case training forces are carly, although December was not by support as the case training forces are carly, although December was not by support as the case training forces are carly although December was not by support as the case training forces are carly although December was not by support as the case training forces are carly although December was not by support as the case training forces are carly although December was not by support as the case training forces are carly although December was not by support as the case training forces are carly although December was not be the more carly although December was not be carly although December was not be the more carly although December was not be carly although December was not because and the carly although December was not because support the market or give it additional impetus at a later stage of the game. It the back of the "boom." The price hung might look very well to keep on accumulating stock and sending the price conlating stock and sending the price constantly toward higher levels, but it might by the "boomers." There was a seeming ports, 25 bushels prove very difficult to cash in the ac-cumulated paper profits at the top. hesitancy to advance prices, and when the day closed there was still stock for sale

this 'me a year ago. Little that was new figured in these rumors, and the general belief regarding the action of the stock was that it had no special relations four to one of the new stock. It was septen day in financial circles. It was that when the new issue of stock should be forth-coming, the old holders would be offered four to one of the new stock. It was tion to any developments in the trade.

Professional operations probably had most to do with the decline.

The traders were not able to make up The traders were not able to make up their minds as to whether the strength in Union Pacific was designed to conceal selling elsewhere in the list or the weakness in Steel was intended to cover buying operations elsewhere. However, as this plan of the company, which, it is said, would have been carried through, had the price remained around 60. Now, however, should the price remain above september... So and go possibly to 90, the stockholders might be obliged to content themselves with three to one when the melon is cut.

there had been five days of advancing prices, it did not call for any extraordinary courage on the part of professional operators to engage in a play for a reaction. Many of them who sold early seemed to be satisfied with modest profits, for they covered moderately just before the close.

Notes.

A phenomenal rise in Capital Traction was flashed upon the board yesterday, the quotation price going up nearly seven points. The explanation given for the flurry is that numerous persons are in a pinch with reference to the new issue of bonds, and that of late there has been a scurrying about to get stock with

Notes.

Notes.

A phenomenal rise in Capital Traction was flashed upon the board yesterday, the object of the points. The explanation given for the flurry is that numerous persons are in a pinch with reference to the new issue of bonds, and that of late there has been a scurrying about to get stock with American stocks in London irregular, a scurrying about to get stock with which to increase their holdings in the new Capital Traction 5's. It is said that to still higher figures.

E. W. Crew, of Henry Clews & Co .- July .. 'London orders were not of much account this morning, but the recent May..... strength of the market has convinced wise to stand too heavily committed on the short side. The advance this morning, therefore, was caused by the buying from that source. There is a diversity of opinion among prominent operators regarding the status of the market. There seems to be a plausible reason for the Quotations furnished by Miller & Co., members of rise in Union Pacific, when it is taken into consideration that the underwriters A lawyer representing Klaw & Erlanger 000,000 convertible bonds, and that the only way to make them look attractive and to

day's transactions, running into quite a America. heavy volume. No news was current regarding the property, other than that the earnings for the year ended July 1 would It is rumored that new orders are not 450,000,000 pounds. oming well and that considerable contraction is in sight. It is this expectation, as evidenced also by the decline in

that might have been expected. The enthusiastic closing of yesterday produced Regular call, 12 o'clock noon, oitel Traction, 15 at 130, 10 at 131, 100 at 135, lower prices from London, our first prices were generally strong. During the middle of the day prices sagged, although on one or two occasions feverish rallies in Union Pacific steadied the list. The final fifteen minutes was a reversal of yesterday, that is, under increased pressure, prices gave way more rapidly. This pressure I expect to see continued in the morning, and it would be but natural to have this read tionary movement extend some further.
